INDEX TO VOLUME 5

A

Aboriginal children and adolescents; a survey on Queensland settlements, 1967 71
———————, Australian; studies of streptococcal infection, heart reactive antibody and subclinical rheumatic carditis 209
Aboriginal infants, Australian; lactose digestion and breast feeding 109
Acid mucopolysaccharide; urinary excretion in mentally retarded children, (Abstract) 177
Adenoidectomy; dangers in congenital short palate (Abstract) 175
Adrenocortical function; assessment using a synthetic polypeptide (Synacthen). (Abstract) 173
Alexander, G.: Cardiovascular function in newborn lambs exposed to extreme cold (Abstract) 177
Alimentary dyskinesia in the neonate (Abstract) 176
Amantidine; trial in influenza A_2 (Abstract) 178
Asthma; changes in disk electrophoretic patterns in globulins in serum of children 106
———, chronic; disordered lung function and correlations with clinical parameters. (Abstract) 180
———; histamine binding in serum of children with 133
Asthmatic bronchitis in infants; studies of respiratory function 187
Australian Paediatric Association. Proceedings of Annual Meeting. Abstracts of papers. 169

B

Bacteriuria; diagnosis by bladder puncture in infancy and childhood 97
Baker, W.: A case of inclusion body myopathy. (Abstract) 249
Barham, K. A., Clark, A. C. L., and Roche, D. A. Studies of erythropoietin in the newborn. (Abstract) 177
Benign disseminated reticuloendotheliosis of the skin in infancy. 241
Beveridge, J., *see* Gauthier, B. *et al.*
———————, *see* Vowels, M. *et al.*
Bladder puncture in diagnosis of bacteriuria — 97
Blomfield, J., Wilkinson, C., Steward, J. H. and Johnson, J. R.: Optimum magnesium levels for haemodialysis. (Abstract) 181
Blood capillary and arterial in the newborn; comparison of pO_2 and acid base studies. (Abstract) 170
Blood oxygen tension; measurement in the neonate (Abstract) 249
Bowel, small, mucosa; morphology in childhood. (Abstract) 248
Breast feeding and lactose digestion in Australian Aboriginal infants 109
Bronchitis, asthmatic; studies of respiratory function in infants 187
Brown, Caroline, *see* Vinson, T. *et al.*
Buchanan, A. J. C., *see* Connelly, J. F. *et al.*
Buisson, J., *see* Formby, D.
Burgess, J.: Latent diabetes and its treatment. (Abstract) 248
Burgher, H. G., *see* Connelly, J. F. *et al.*
Burke, Valerie, Gracey, M. and Townley, R. R. W.: N-Acetyl cysteine in the treatment of Meconium Ileus Equivalent (Abstract) 175

C

Camakaris, J., Cotton, R. G. H. and Danks, D. M.: Screening for urinary purines and and pyrimidines and related compounds using auxotrophic mutants and Escherichia coli K12. (Abstract) 180
Campbell, D., *see* Mountain, K. R.
Campbell, P. E.: Congenital lobar emphysema — etiological studies 226
———————, *see* also Dreher, G. H. *et al.*
———————, *see* also Jones, P. G.
———————, *see* also Noblett, Helen.
Cardiovascular function in newborn lambs exposed to extreme cold. (Abstract) 177
Catt, K., *see* Connelly, J. F. *et al.*
Cell tumour of the testis; interstitial. (Abstract) 248
Choledochal cysts in childhood; the role of excision in the surgical treatment. (Abstract) 175
Christophers, A. J.: Does Sydney lead in the diagnosis of lead poisoning in children? 36
Chromosome 18 long arm deletion syndrome; a report on three cases. (Abstract) 179
Cigarette smoking in pregnancy; role of social and medical factors influencing prematurity. (Abstract) 169
Clarke, A. C. L., *see* Barham, K. A. *et al.*
Cloonan, M. J., Hawkes, R. A., Lewis, C. J. and Stevens, L. H.: Post-natal decline of maternally acquired Rubella antibodies in premature, dysmature and normal infants. (Abstract) 179
Coagulation; disseminated intravascular 219
Coeliac disease; immunoglobulins in. (Abstract) 249
Cohen, D. H.: Osophageal reconstruction using a gastric tube. (Abstract) 176
Cold; effect on cardiovascular function in newborn lambs. (Abstract) 177
Colebatch, J. H., Mathews, Rae., Taft, L. I., Spatt, Tessa., Horan, Margaret, and Santamaria, J. N.: Significance of long-term survival in acute leukaemia. (Abstract) 175
Congenital lobar emphysema, etiological studies 226
Connelly, J. and Wettenhall, H. N. B.: Relationship between clinical findings and plasma growth hormone assays in the differential diagnosis of dwarfism. (Abstract) 173
———————, Wettenhall, H. N. B., Burger, H. G., Catt, K. and Buchanan, A. J. C.: An assessment of stimuli used in inducing growth hormone release in the study of pituitary function. (Abstract) 181
———————, *see* also Davies, H. E.
Cooper, R. G.: A survey of Australian children for asymptomatic urinary infection 89
———————, Some factors that influence the bacteriological diagnosis of urinary infection 129
Corbett, A.: Measurement of blood oxygen tension in the neonate. (Abstract) 249
Coronary haemodynamics and myocardial metabolism in experimental animals; effect of endotoxin shock upon the. (Abstract) 180
Correspondence: Does Sydney lead in the diagnosis of chronic lead poisoning in children? 124
